ABN: 80 624 026 544

Overview

Since inception in early 2018, Civil & Structure has strived to fill a perceived gap between the civil and structural industries.

Bringing a solution based attitude to every project, our team is dedicated to delivering quality, safe and customer focused work. Civil & Structure specialises in complex civil infrastructure, with an emphasis on water infrastructure.

With company turnover circa \$1.25 million per annum, Civil & Structure has successfully completed over \$7 million worth of projects.

As an accredited and aptly trained team, our strengths lie within the ability to provide a full package, seamless start to finish projects.

Client List

- Alem Lube
- Comdain Infrastructure
- DSA Contracting
- Illawarra Engineering Services
- Interflow
- Lendlease
- Manildra Group
- Prime Build
- Service Stream
- Turnkey Industrial Engineering

ABN: 80 624 026 544

Heidi Pl, West Pennant Hills

Service Stream (Sydney Water)

Duration: 10 months

Value: \$1,070,000

- Establishment of 2km of access track to land slip
- Installation of a dual 225mm bypass pump system
- Excavation of land slip, bank and adjacent creek in preparation for remediation
- Removal and replacement of approximately 50m of 450mm sewer line
- Bypass pumping of creek while stabilisation and remediation occurred
- Stabilisation of bank and adjacent creek with 1100T of gabion basket structure
- Remediation of affected bushland and track
